ACI Concrete Flatwork Finisher/Technician Certification Course

WEDNESDAY, FEBRUARY 17, 2016

Concrete Ontario and ACI–Ontario Chapter are offering an in-depth course for concrete flatwork finishers and technicians. To qualify for the **Flatwork Finisher** designation you must achieve 70% on the examination, as well as having 4,500 hours of work experience, and for the **Flatwork Technician** designation you must obtain 70% on the examination with no work experience required. Those that successfully pass the examination will be certified by ACI–International for a five-year period.

WHO SHOULD REGISTER?

Anyone that is involved with the construction and concrete industry in Ontario! This course covers all of the basics of concrete construction and is applicable to the entire construction industry including:

- ◆ Concrete Finishers
- ◆ Construction Inspectors
- ◆ Project Superintendents
- ◆ Project Managers, Engineers, Designers
- ◆ Concrete Testing Company Personnel
- ◆ Concrete Quality Assurance Personnel

YOUR ENROLLMENT FEE INCLUDES:

- ◆ 1 Workbook (couriered upon receipt of registration & payment)
- ◆ Concrete Finisher work experience forms
- ◆ 1 Written Exam
- ◆ Complimentary Membership to ACI Ontario Chapter

YOU MUST COME PREPARED!

PLEASE STUDY THE WORKBOOK PRIOR TO THE COURSE!

WHY:

The Concrete Industry's ability to provide a material that meets any degree of durability, strength and workability at virtually any age, in any shape and architectural finish makes concrete the "**Material of Choice**" for Ontario's construction industry.

Due to the extensive advances in concrete technology, there is a critical need for standardized concrete training. This one-day course provides you with the following essential information regarding cast-in-place concrete:

- ◆ basic concrete understanding
- ◆ proper testing procedures
- ◆ placement
- ◆ finishing tools
- ◆ control joint layout
- ◆ architectural concrete
- ◆ curing
- ◆ troubleshooting

Both Concrete Ontario and ACI–Ontario Chapter are recognized for their efforts in supporting educational and concrete quality initiatives. This certification course provides both you and your employees with the critical technical knowledge that they need to properly design, place, finish and cure concrete.
