

Engineering Technologist

Permanent Full Time

Posting No. 16-21

February 2, 2021

The Resort Municipality of Whistler is a one-of-a-kind community and is often recognized as the number one mountain and ski resort destination in North America. It has a thriving four-season events calendar, and arts and culture sector. Whistler was the Host Mountain Resort for the 2010 Olympic and Paralympic Winter Games. Financially sound and responsive to an engaged mayor and council, this is a high performance municipal organization serving a community of almost 12,000 people and three million annual visitors. As an economic generator of over \$1.53 billion annually, Whistler is key to British Columbia's tourism economy.

The Development Services department of the Infrastructure Services division has an opportunity for qualified individuals to apply for the position of Engineering Technologist. Reporting to the Manager of Development Services, this position offers 72 hours bi-weekly starting approximately April 12, 2021.

The Engineering Technologist is responsible for plan checking; conveying procedures and specifications to contractors and development applicants; inspecting and supervising the installation of public works; and review of legal documents.

Qualified candidates have completed a Civil Engineering Technology Diploma and possess certification as an Applied Science Technician or Technologist with the Applied Science Technologists and Technicians of British Columbia and at least 1-3 years of experience in a similar role including inspecting and/or supervising the installation and/or rehabilitation of buried municipal utilities. Qualified candidates demonstrate good working knowledge of the methods, materials, tools and equipment used in construction maintenance and repair of municipal water, sewer and drainage works; of municipal engineering practices; and with community engagement in open house settings. Qualified candidates are proficient with a variety of Microsoft software applications and databases, AutoCAD, and ArcGIS with the ability to learn new and changing technology and have the abilities to read, interpret and create technical plans and to utilize ArcGIS for analysis.

The successful candidate is a professional individual and demonstrates excellent verbal and written communication skills and is analytical and research-oriented with the ability to effectively respond to inquiries from builders, homeowners and the public regarding specifications, service information, legal lot surveys, record drawing information and can work well under pressure, manage competing demands and effectively prioritize work load. The successful candidate demonstrates commitment to promoting a diverse and inclusive workplace within their team and will create and maintain effective working relationships with others while contributing to a positive team work environment.

As a requirement of the position, the successful applicant must hold a valid class 5 BC driver's license and must provide a satisfactory driver's abstract prior to beginning employment.

Interested candidates are invited to submit a resume and cover letter online at www.whistler.ca/careers

Posting No. 16-21 | Deadline for applications is Tuesday, February 16, 2021

We thank all applicants for their interest however, only those candidates selected for further consideration will be contacted.

The Resort Municipality of Whistler is committed to being an equal opportunity employer who embraces and respects diversity.
