

Senior Engineer

Permanent Full-time

Corporate Services

Mount Pearl is a vibrant, progressive community with an exceptional quality of community life and a strong sense of home. We are home to 23,000 people who live, work and play here and our economy is dynamic and rooted in innovation and excellence. We are seeking a person who is strategically focused on the continual growth and community development of Mount Pearl.

The Role

The Senior Engineer is responsible for the planning and design, project coordination and oversight of large, complex and multi-disciplinary construction or redevelopment projects. This may include supervision of various technical and non-technical staff, review of the designs and plans of other offices and contractors, and the preparation and review of contractual documents. The Senior Engineer provides technical expertise for various processes, procedures, plans and designs.

The Ideal Candidate

The ideal candidate for this role will have a thorough understanding of a number of different engineering disciplines as well as an Undergraduate Degree specializing in Engineering (preferably civil), supplemented with a Professional Engineering Designation; A minimum of 6 years work experience in the field of municipal engineering; Experience with design-bid-build and design-build approaches to procurement and extensive experience in project management including contract procedures and policies.

Our Team is the Place for You!

The City offers a respectful, safe and exciting work environment focused on public service; competitive compensation of \$90,000 - \$110,000; comprehensive programs in health and wellness; and a defined benefit pension with transfer-in options.

Interested applicants may apply, in confidence, by submitting an application through our website's Public Opportunities page (mountpearl.ca). Interviews will commence starting the week of August 14, 2023.

The City thanks all interested applicants. Selected applicants will be notified if invited for an interview.
