## Job Overview

The Township of Langley is currently recruiting for a regular full-time Transportation Engineer, Junior to join our team of professionals in the Engineering Division, Transportation Department. Reporting to the Manager, Transportation Engineering or Senior Transportation Engineer, in this exempt position you will assist in the development and review of a variety of transportation capital projects and transportation studies. The Transportation Engineer, Junior will assist in the development of all modes of transportation as it relates to transportation engineering and planning including the development of a Transportation and Mobility Strategy.

## Responsibilities

In this role you will assist in the planning and implementation of transportation initiatives for all modes of transportation, including roads, rapid transit systems, buses, walking, cycling, and safety and accessibility initiatives. You will establish and maintain effective communication and coordination with other organizational units in the departments and external stakeholders including Ministry of Transportation, TransLink, community organizations, other Municipalities, and the public. You will assist in addressing accessibility, transportation choices, affordability, community issues and respond to enquiries and requests made from the public on transportation infrastructure, plans, and safety. You will undertake transportation analysis and conceptual/functional designs as well as cost estimates using industry standards to address current and future transportation needs for all modes of transportation for users of all ages and abilities.

## Qualifications

Your education will include a recognized post-secondary bachelor's degree in civil engineering. A minimum of three years' transportation engineering related experience with progressively more responsible project management. Preferably supplemented with some experience in a Municipal environment. You have strong written and verbal communication skills, demonstrate leadership, have the ability to problem solve and interpret policies, standards/design criteria. Extensive computer familiarity is required with proficiency in Microsoft Office, visual presentations and spreadsheets. Knowledge of TAC standards and alternate modes of transportation is preferred.

## Required Certifications/Licenses

Candidates **must** have the following valid and **current** certifications/licenses (must be valid at the time the posting closes) and these **must** be attached with your application.

- BC Class 5 (full privilege) Driver's License or Driver's license for you reside. You must include with your application a current **Personal Driving Record (select the 5-year option if obtaining online)** that has been obtained within 6 months of the closing date. To obtain a copy of your **Personal Driving Record**, please contact ICBC directly or the driving authority where you reside. Please note that a copy of your Driver's License and the Driver Factor Report **will not** be accepted.
- Designation as an Engineer in Training (EIT) or Professional Engineer (P.Eng.) with Engineers and Geoscientists British Columbia (EGBC)

**Applications without the attached required documents above will be deemed incomplete and may not be considered. Please title your attachments with the number of this competition and have these documents ready to upload when you apply.**
