Job Overview

The Township of Langley is currently recruiting for a regular full-time **Manager, Geomatic Services** to join our team of professionals in the Information Technology Division. Reporting to the Director, Information Technology, in this exempt position you will be responsible for organizing and implementing technology, services and data management practices that apply to geographic information systems (GIS). This position oversees a team of employees and ensures that all geomatic related services are coordinated and corporate goals and objectives are met accordingly.

Responsibilities

In this role, you will manage the Geomatics Services team with responsibility for the architecture, standardization, quality assurance, quality control, design, development, operation, and support of geomatic systems and geospatial data and related hardware, software and services. You will oversee recruitment, selection, motivation, training and employee performance evaluation for the Geomatic Services team. In consultation with the IT management team, you will make recommendations on strategic direction of the IT Division and ensure that current and proposed solutions operate within budgetary and corporate goals. The Manager, Geomatic Services promotes a service ethic within the department and ensures that corporate solutions are implemented through proactive communication, presentations, reports, project management and facilitation.

Qualifications

Your education will include a university degree in Geographic Information systems/Geomatics or an equivalent combination of training and experience, supplemented by courses of work and a minimum of five years related work experience with progressively more responsibility in geographic information systems and at least two years supervisory experience. With excellent leadership skills, you can provide advice, direction and leadership to a diverse work group. You have considerable knowledge of the principles and practices of geomatics, base mapping, engineering service mapping, GIS applications and data management and knowledge of the principles of civil engineering and land surveying.

Required Certifications/Licenses

Candidates **must** have the following valid and **current** certifications/licenses (must be valid at the time the posting closes) and these **must** be attached with your application.

BC Class 5 (full privilege) Driver's License. You must include with your application a current **Personal Driving Record (select the 5-year option if obtaining online)** that has been obtained within 6 months of the closing date. To obtain a copy of your **Personal Driving Record**, please contact ICBC directly or the driving authority where you reside. Please note that a copy of your Driver's License and the Driver Factor Report **will not** be accepted.

Applications without the attached required documents above will be deemed incomplete and may not be considered. Please title your attachments with the number of this competition and have these documents ready to upload when you apply.
