Job Overview

The Township of Langley is currently recruiting for a regular full-time **Senior Network Infrastructure Analyst** to join our team of professionals in the Information Technology Division. Reporting to the Manager, IT Operations, in this unionized position you will be responsible for identifying and proposing opportunities to maximize the secure and effective use of corporate network infrastructure systems and assessing business requirements for client departments.

Responsibilities

- Project lead on acquisition and implementation of approved IT infrastructure systems
- Evaluate available network, server, storage, voice infrastructure systems and prepare recommendations
- Evaluate user requirements for systems including, identifying and recommending hardware, software, and related services
- Research, recommend and prepare reports, guidelines and procedures for computer security
- Plan, assign and supervise the work of a small group of employees engaged in maintaining the server, voice/data network systems and security solutions
- Establish effective communication with users, suppliers and applicable internal/external contacts
- Keep informed of developments in IT hardware, software and cyber-security related matters
- Represent the department at meetings and provide advise/assistance to users as required
- Perform related work as required

Qualifications

- Two-year diploma from an institute of technology in systems and programming, plus considerable related experience or an equivalent combination of training and experience
- Excellent problem definition and resolution skills, sound knowledge of the methods and principles used in training users in the use of hardware and software applications, and a good working knowledge of programming and systems analysis techniques as related to the work
- Excellent customer service skills balanced with the application of best practices and organizational policies
- Considerable knowledge and hands on working experience with Palo Alto firewalls and Cisco Technologies (Switching, Wireless, Firewall, Endpoint)
- Working knowledge and experience with one or more of the additional technologies used at the Township of Langley including F5 technologies (Big IP, APM, ASM), Azure Cloud (Azure AD, O365, Exchange, Intune, Teams, MFA, SaaS, PaaS, IaaS), VMWare (ESX, vCenter, Orchestrator, SRM) and experience with deployment and management of digital certificates (PKI)
- CompTIA Certifications in Network+, Security+, Cisco CCNA or higher, PCCSA, PCNSA, PCNSE and certifications and/or formal training in any of the above technologies is desirable.

Security Clearance for work at RCMP Buildings is required (not required as part of the application process, however, will be required upon consideration for employment).

Required Certifications/Licenses

Candidates **must** have the following valid and **current** certifications/licenses (must be valid at the time the posting closes) and these **must** be attached with your application.

- BC Class 5 (full privilege) Driver's License. You must include with your application a current **Personal Driving Record (select the 5-year option if obtaining online)** that has been obtained within 6 months of the closing date. To obtain a copy of your **Personal Driving Record**, please contact ICBC directly or the driving authority where you reside. Please note that a copy of your Driver's License and the Driver Factor Report **will not** be accepted.

Applications without the attached required documents above will be deemed incomplete and may not be considered. Please title your attachments with the number of this competition and have these documents ready to upload when you apply.
