As the Sr. BA you will act as a liaison between the business and the solutions team across a diverse customer portfolio.

### RESPONSIBILITIES

As member of the Business Transformation Team you will:

- Define business scope and objectives through research, fact-finding and a thorough understanding of applicable business and industry requirements.
- Lead and create, clear and well-crafted requirements as well as develop complex, integrated process models to support understanding of the business problem or opportunity in question.
- Work with business units to analyze & design potential solutions, communicate proposed recommendations, obtain consensus from all stakeholders, and assist with resolving conflict, so the common goal can be achieved by everyone.
- Champion change and support effective communication with relevant stakeholders at all levels.

You are a Business Analyst who:

- Values relationships and helps strengthen the bond with partners with a high degree of trust, teamwork and mutual respect.
- Brings an in-depth knowledge of business analyst best practices, requirements elicitation & analysis, stakeholder assessments as well as process modeling techniques that help enhance business operations and service delivery.
- Has impeccable communication & facilitation skills and is able to ensure the right message is understood by all parties involved.
- Supports and promotes change to help shape business transformation.
- Is a senior-level professional and leader who takes action in challenging situations and help engage and enable others for success.
- Is results driven person who performs at a high level to achieve desired outcomes and align contributions to improve business performance.

# BUILD A CITY. BUILD A FUTURE.

- Is a natural born problem solver and able to consider situations from multiple perspectives and beyond conventional thinking.
- Has a demonstrated record and commitment to professional development and treats new challenges as opportunities to grow.
