

The Corporation of the City of Brantford Engineering Services

requires

Senior Project Manager - Stormwater

Job ID# 2147

Situated on the picturesque Grand River, the City of Brantford is a rapidly growing community of over 100,000 residents, located in the heart of Southern Ontario with direct access to Hwy. 403 and is in close proximity to the GTHA, Waterloo and Niagara regions. As a single-tier municipality, Brantford is responsible for the full spectrum of municipal service areas. We invite you to join our #TeamBrantford corporate culture with many progressive initiatives, including our hybrid work environment (within 200 km of the City of Brantford boundary). The City is committed to the professional development of our staff and invite you to come, grow with us!

Reporting to the Manager of the Design in the Engineering Services Department, the Senior Project Manager - Stormwater is responsible for the management of studies including environmental assessments, planning, development, and design, and assisting with construction and maintenance of the city's stormwater resources and stormwater management systems. In a leadership role, the Senior Project Manager will be responsible for delivering major stormwater resource projects for the City. The Senior Project Manager provides training, mentoring, and coaching to the project teams in the Design and Construction Divisions of the Engineering Services Department. Duties include but are not limited to:

- Responsible for the stormwater management projects, management of Consultants, preparation of design reports that include the design analysis for stormwater management facilities, storm sewer and water course, sewer capacity and hydraulic grade line studies, flood control evaluations, flood plain delineation, sub-watershed studies, environmental assessments and sedimentation and erosion analysis.
- A leadership role in the project management of preliminary investigations, environment assessments, studies, budgets, design through to construction and remediation of major stormwater resource projects such as the Mohawk Lake and Canal Remediation Program.
- Accountable for the delivery of the capital projects identified in the City's Storm Water Master Plan. Assists in identifying the projects, scope of work and cost estimates for inclusion in the City's Capital Projects budget and forecast.
- Provide sound engineering advice related to stormwater resources.
- Represent the Public Works Commission by periodically attending and presenting at advisory boards, public meetings and City Council meetings.
- Liaise with governing and approval agencies, stakeholders, developers, consultants, contractors, internal staff and external agencies.
- Leads by example with strong written, verbal and interpersonal communication skills to support, coach and mentor the development of staff.
- Other duties as assigned.

QUALIFICATIONS

- Four-year University Engineering Degree in Civil/Environmental with a strong focus on Water Resource or equivalent.
- Registered as a licensed Professional Engineer in good standing with the Association of Professional Engineers of Ontario (PEO), or eligible for designation in Ontario.
- CET designation with a combination of experience may be considered.
- A minimum of five (5) years of relevant experience in stormwater management, water resource planning and engineering in Ontario.
- Strong project management skills, with the ability to manage multiple and changing demands and priorities.
- Excellent verbal, written and interpersonal skills within a multi-functional and collaborative team environment is essential.
- Extensive knowledge of pertinent legislation, policies, and bylaws within federal, provincial and municipal government (GRCA, MOECC, MOT, MNRF, etc.).
- Working knowledge with computer applications including Microsoft Programs, AutoCAD Civil 3D, HEC-RAS, Visual Otthymo.
- Possess a valid Class 'G' driver's license in good standing during the course of employment.
- IMS 200 Certification or equivalent (ICS200) is considered an asset. Subject to course availability, certification must be achieved within the first year of employment.

WAGE/SALARY RANGE: \$53.97 to \$67.46 per hour (based on a 35 hour work week) plus benefits.
