

## Engineering Technologist 1 (Asset Management) Regular Full Time

### About Us

One of BC's Top Employers, the City of Coquitlam offers meaningful career opportunities to make a difference within the local community. As the sixth largest city in BC, we are home to more than 150,000 residents. Our diverse municipality is a great place to work as it continues to grow through innovative urban design, inspiring arts, culture and recreation programs, and state-of-the-art transportation systems. Our brand is built on managing our resources in a responsible and sustainable manner, while supporting a vibrant, growing regional urban centre. We envision a bright future in Coquitlam that we hope includes you!

### About You / What We Are Looking For

This challenging and rewarding role involves technical, administrative and field work relative to inspecting, planning and managing municipal storm systems, sanitary sewer systems, water systems, pavements, traffic operations assets, and engineering construction projects. You will evaluate infrastructure condition and develop long range sustainable utility management plans as well as research/study, develop, schedule and administer relevant projects including construction. You will also assist in compiling recommendations on capital projects and other technical matters while exercising considerable independent judgement and action in terms of conformance with engineering adequacy and departmental procedures. Able to establish and maintain working relationships with a wide range of internal and external contacts, you will provide technical information, advice and interpretation of engineering requirements.

Your success in this role is dependent on your considerable knowledge of municipal storm water, sanitary sewer, and water systems, and pavement management techniques and technologies. You are also knowledgeable in design and engineering standards relative to all aspects of municipal infrastructure servicing and of the methods, practices, materials and equipment used in the construction and installation of municipal utilities, as well as in asset management.

### Minimum Qualifications

The ideal candidate completed a diploma in an appropriate discipline (such as Civil/Structural Engineering) from an institute of technology plus sound related municipal engineering experience. Certification or eligibility for certification as an Applied Science Technologist within the Province of BC is a requirement. A valid BC Driver's License is required for this role.

### What We Offer:

This CUPE position has an hourly rate range of \$44.20 - \$52.20. The rate of pay is based on a variety of factors including qualifications, knowledge, experience and skills.

You will have the chance to join a rapidly growing and diverse team dedicated to supporting the local community, and be able to engage in variety of learning and development opportunities. Additionally, there is an opportunity to participate in an earned day off/flex day program. This position is based in Coquitlam with some flexible, hybrid work options available. The City offers an attractive vacation and extended benefits package, including the ability to contribute to the Municipal Pension Plan.

### Accessibility / Equal Opportunity Employer

The City of Coquitlam is proud to be an Equal Opportunity Employer working towards enhancing equitable practices in our recruitment and retention processes. As an organization we are committed to creating an inclusive work environment to support our growing and diverse work force. To learn more about what equity, diversity, and inclusion means, and the City's efforts in support of these principles, please visit [coquitlam.ca/edi](http://coquitlam.ca/edi) for more information.

If at any time during the application or recruitment process you require additional assistance or an accommodation, please contact our team for confidential support. Staff can also provide in-person support if required.

Applicants under consideration may be required to undergo a police information check (with no adverse reports).
