### Business Services Application Manager

#### Join our dynamic team!

As the Business Services Application Manager, you will provide strategic direction, project management, technical expertise and support for the City's Business Services and Property/Land systems. You will be responsible for managing the selection, acquisition, configuration and implementation of commercial application software and platforms as well as managing the design, development, and implementation of custom software solutions. You will collaborate with the Chief Technology Officer and the Information Services management team to assess the future direction of technology and enterprise systems and provide technical leadership. You will also be responsible to analyze and translate business strategies, plans, and requirements into efficient and effective information systems within a budget.

You have a bachelor's degree in computer science, at least 10 years experience in the information technology/services field as well as management experience. You are a creative problem solver with strong project management and analytical skills. A proven leader with excellent communication, customer service and interpersonal skills with the ability to build strong working relationships and partnerships with both internal and external stakeholders. Project Management Professional (PMP) or Program Management Professional (PgMP) certification is preferred. Join us and help transform our city through technology and innovation.
