

JOB OPPORTUNITY BULLETIN
Manager of Engineering and Parks Operations
Regular Full-Time
Competition #24-44

Langley City is a community of 29,000 people positioned in the rapidly growing area of Metro Vancouver. It has a vibrant community spirit and an inspiring vision of being “The Place To Be” now and in the future. Langley City has all the amenities of any urban centre in very close proximity: great shopping, 300 acres of parks, world-class educational institutions, and entertainment facilities.

The City of Langley has an attractive career position available for a Manager of Engineering and Parks Operations, an opportunity to join a progressive and well-led organization at an exciting time with Skytrain extending to the City in the near future.

Reporting to the Director of Engineering, Parks and Environment, the Manager of Engineering and Parks Operations is responsible for the vision, planning, budgeting and managing the day-to-day activities of the Engineering and Parks Operations Division which includes roads, drainage, fleet maintenance, water and sewer utilities, City parks and boulevards and solid waste management. This role develops, evaluates and implements programs to improve operations of the Division, prepares cost estimates for projects, prepares and maintains operational reports and records, and approves all material and equipment invoices and timesheets. The Manager of Engineering and Parks Operations is involved in the preparation of the annual capital and operating budget, on-going monitoring and adherence to same and investigates and recommends replacement and new equipment purchases. This position works with a variety of internal and external contacts and represents the Department at various meetings and/or committees.

We are seeking a forward-thinking individual who is responsive to the public, has strong administrative, technical, planning and financial management skills; and construction and maintenance experience in municipal operations or a similar environment. Your inclusive and supportive leadership approach, communication, interpersonal and customer service skills are integral to working collaboratively with the team and key stakeholders delivering results and innovative solutions that support Council priorities, community growth and infrastructure. Your previous accomplishments demonstrate your commitment to a strong workplace safety culture, your ability to pro-actively identify issues, navigate contentious situations effectively and to continuously seek improvement and/or efficiencies.

Graduation from an Institute of Technology with a Certificate in Civil Engineering or related discipline or completion of technical courses related to the work and considerable leadership experience within a municipal operations setting are desirable. Candidates must be registered or be eligible for registration as an Applied Science Technologist in B.C. A valid Class 5 Driver’s License for the Province of British Columbia is also required. Further details of the position and its requirements can be found in the job description at www.langleycity.ca/careers.

A competitive salary range of \$146,661 – \$160,260 commensurate with experience and an excellent benefits package is offered with this Exempt role.

If you would like to join a team committed to building a vibrant, healthy, and safe community together with current and future generations we invite you to apply by **October 2, 2024**. Please email your cover letter, resume, and a current Personal Driving Record (select the 5-year option if obtaining online) that has been obtained within 6 months (please contact ICBC or the driving authority where you reside). Submit your application to the Human Resources Department, Langley City, hr@langleycity.ca using the following format in the subject line: **LAST NAME First Name #24-44**.

Langley City appreciates the interest of all applicants. Only those under consideration will be contacted.

The City has a Covid 19 vaccination policy that is currently suspended. However, should the policy be reinstated, it will be a requirement for all current and future employees.
