Traffic Technician

Move your Career in the right direction!

Contribute to our City by joining the Infrastructure Division as a Traffic Technician. As part of the Integrated Transportation team, your key responsibilities include data collection, transportation asset management, traffic operations, safety assessments, conceptual design of multi-modal facilities, development approval support and a focus on the planning and development of capital projects.

The City seeks an individual with a Civil Engineering Technology or Transportation Engineering Diploma to work collaboratively with the public, other City departments, consultants, developers and external agencies to make our transportation network safer and efficient. Professional Technologist certification (AScT) is preferred. Experience with traffic projections, capacity analysis, traffic control operations and design, active transportation/transit accommodation and traffic safety are considered assets. As a strong communicator, team builder, and problem-solver you will deliver excellent internal and external customer service.

Grow your career in an organization that supports employee work-life balance and career and professional development. This is a CUPE bargaining unit position with an hourly rate starting at **\$49.66** (from April 1st) per hour plus employer-paid comprehensive benefits, an earned day off program, paid vacation and one of Canada's top pension plans

The City of Kelowna is committed to being an organization that values and reflects its community's diverse population, and to fostering an equitable, inclusive and progressive work environment where everyone can be their authentic self and feels a sense of belonging.

For further information or to apply, please check our website at www.kelowna.ca/careers

Applications must be received by end of day **April 2, 2025**.

Applicants not contacted within three weeks of the closing date are thanked for their interest
