

## DEVELOPMENT ENGINEER

Regular Full-Time

Development Services / Planning & Development

### Drive Sustainable Growth Through Expert Planning and Design!

#### About our community:

Boasting a high quality of life and standard of living, Prince George has all the amenities of a large city mixed with the friendliness and appeal of a smaller community. It is a regional centre for close to 326,000 people for shopping, education, health care, the arts, and sports. Prince George's central location in the province offers work/life balance with unparalleled access to four-season outdoor recreation activities that are complemented by a full range of urban amenities and a comprehensive transportation infrastructure that connects residents, businesses, resources, and agricultural products to markets around the world. And it is only a short drive to almost anywhere in Prince George – spend less time commuting and more time doing what matters most to you! Discover all these opportunities and more!

#### About our organization:

The City of Prince George is committed to ensuring a positive, well-balanced work environment for its employees. With opportunities for employee training, wellness programs and professional development the City of Prince George offers a safe and supportive workplace in which to serve our community.

#### About the opportunity:

The Development Engineer, reporting to the City Engineer, leads Planning and Development capital projects from start to finish while managing budgets. Key responsibilities include reviewing development applications related to City infrastructure, including surface and subsurface aspects, and approving subsurface infrastructure including water and sanitary sewer modeling. Additionally, the role involves designing civil infrastructure, assisting with infrastructure master plans from the Official Community Plan, and overseeing local service area projects as needed. The Development Engineer supports project teams throughout the capital project lifecycle, ensuring completion on time, within budget, and according to specifications. This position requires initiative and the ability to interact effectively with various stakeholders, including internal teams, external organizations, and consultants.

#### About Your Background:

You have a bachelor's degree in civil engineering from a publicly accredited post-secondary institution recognized in the BC Transfer Guide. You must also hold or be eligible for registration as a Professional Engineer (P.Eng.) with Engineers and Geoscientists British Columbia. Having a Project Management certificate (CMP) or a professional project management designation (PMP) would be an asset. Ideal applicants have at least three years of experience as a licensed practicing engineer, with expertise in civil engineering, planning, design, and construction inspection, as well as municipal water and wastewater treatment, conveyance, and pumping infrastructure. Experience and familiarity with hydraulic modeling is preferred. Additionally, training and experience in project management activities related to construction, including resource planning, procurement, and financial management and analysis, are required.

#### Why You Will Love Working for our Development Services team at the City of Prince George:

- Work with a team of professionals dedicated to providing exceptional customer service.
- Enjoy a competitive salary range of \$102,965 - \$113,522 plus a comprehensive benefits and pension package.

If you are interested in joining our team, please apply by May 2, 2025 to:
