Information Technology Services / Finance & IT Services

Put Your Expertise to Use in a Progressive IT Environment!

About our community:

Boasting a high quality of life and standard of living, Prince George has all the amenities of a large city mixed with the friendliness and appeal of a smaller community. It is a regional centre for close to 326,000 people for shopping, education, health care, the arts, and sports. Prince George's central location in the province offers work/life balance with unparalleled access to four-season outdoor recreation activities that are complemented by a full range of urban amenities and a comprehensive transportation infrastructure that connects residents, businesses, resources, and agricultural products to markets around the world. And it is only a short drive to almost anywhere in Prince George – spend less time commuting and more time doing what matters most to you! Discover all these opportunities and more!

About our organization:

The City of Prince George is committed to ensuring a positive, well-balanced work environment for its employees. With opportunities for employee training, wellness programs and professional development the City of Prince George offers a safe and supportive workplace in which to serve our community.

About the opportunity:

In this role, you will monitor and maintain the City's data center environment. The key responsibilities include managing server infrastructure life cycles, coordinating multi-OS server environments, fixing OS issues, and managing identity across on-premises and cloud environments. Additionally, you will provide excellent customer service by resolving issues, onboarding new services, and modernizing existing ones, along with maintaining system documentation.

About your background:

You have a diploma or degree in Computer Science or Information Technology from an accredited post-secondary institution. Advanced professional certifications in VMware (VCP), Windows Operating Systems (MCSA), or other related areas are considered an asset. **Systems Administrator 1:** A minimum of one year of related experience supporting desktops, networks, or applications in a virtualized Windows environment.. Recent and demonstrated work experience managing Microsoft's Windows Operating systems, Microsoft SCCM, VM Ware VSphere, and VM Ware Horizon is required. **Systems Administrator 2:** A minimum of 3 years of related experience supporting desktops, network, or applications, in a virtualized Windows environment. Recent and demonstrated work experience managing Microsoft's Windows Operating systems, Microsoft SCCM, VM Ware VSphere, and VM Ware Horizon is required. **Systems Administrator 3:** A minimum of 5 years of related experience supporting desktops, network, or applications in a virtualized Windows environment. Recent and demonstrated work experience managing Microsoft's Windows operating systems, Microsoft SCCM VM Ware VSphere, and VM Ware Horizon is required.

Why you will love working for our IT Services team at the City of Prince George:

- Use your excellent problem solving skills to support the City's' complex data centers!
- Enjoy a competitive wage of \$39.73 to \$49.00 per hour (wage under review) plus excellent benefits and pension.
