## Senior Transportation Engineer – Part-time

The City of Kelowna is a vibrant and rapidly growing community of 160,000 residents. Located in the heart of the Okanagan Valley it is known for its stunning natural beauty, thriving economy, and exceptional quality of life. Kelowna is a leader in innovation and is committed to creating a safe, efficient, and sustainable transportation network that meets the needs of all residents and visitors. Located within the Integrated Transportation Team, this position will support the planning and development of the City's transportation systems including major roads, neighbourhood streets, transit and active transportation.

With rapid growth, the City is improving and upgrading its transportation networks to maintain mobility, reduce environmental and safety impacts and align with community housing, climate and livability targets. As we grow our transportation challenges are becoming more complex. Projects often have diverse objectives, significant constraints and multiple stakeholders. Success often requires innovative solutions. To help solve these challenges, we are looking for a candidate that brings urban transportation experience, innovative ideas, works well within a team environment and is excited to grow.

Grow your career in an organization that supports employee work-life balance and career and professional development. This exempt position offers a salary range of \$133,000 to \$155,000 (pro-rated for part-time), plus 14% in lieu of vacation, statutory holidays and benefits.

The City of Kelowna is committed to being an organization that values and reflects its community's diverse population, and to fostering an equitable, inclusive and progressive work environment where everyone can be their authentic self and feels a sense of belonging.
