

## DEVELOPMENT SERVICES ENGINEERING TECHNOLOGIST

Term Full-Time

Development Services / Planning & Development

### Develop Your Skills in this Technical and Customer Oriented Role!

#### About our community:

Boasting a high quality of life and standard of living, Prince George has all the amenities of a large city mixed with the friendliness and appeal of a smaller community. It is a regional centre for close to 326,000 people for shopping, education, health care, the arts, and sports. Prince George's central location in the province offers work/life balance with unparalleled access to four-season outdoor recreation activities that are complemented by a full range of urban amenities and a comprehensive transportation infrastructure that connects residents, businesses, resources, and agricultural products to markets around the world. And it is only a short drive to almost anywhere in Prince George – spend less time commuting and more time doing what matters most to you! Discover all these opportunities and more!

#### About our organization:

The City of Prince George is committed to ensuring a positive, well-balanced work environment for its employees. With opportunities for employee training, wellness programs, and professional development the City of Prince George offers a safe and supportive workplace in which to serve our community.

#### About the opportunity:

In this technical role, you will manage subdivision applications, development agreements, and engineering reviews for municipal infrastructure projects. Your responsibilities will include intake, coordination, inspection, and closeout of development-related infrastructure work. This position may focus on building permits, subdivision applications, or both, ensuring that all projects adhere to city standards and regulatory requirements. Additionally, you will provide excellent customer service to the development community and the public. **This full time term position is expected to last until January 2026.**

#### About your background:

We are seeking a highly motivated professional with a diploma in Civil Engineering Technology and eligibility for certification as an Applied Science Technologist (AScT) in British Columbia or an equivalent out-of-province designation. For the Development Services Engineering Technologist 1 role, candidates must have Grade 12 completion, a two-year post-secondary Diploma of Technology or Technician Certificate from a nationally accredited program recognized by ASTTBC, and at least two years of experience in a civil engineering environment. The Development Services Engineering Technologist 2 level requires the same educational background and a minimum of three years of relevant experience. For the Development Services Engineering Technologist 3 position, candidates must meet all previous requirements and have at least five years of experience, along with an AScT designation. **A valid full privilege Class 5 BC driver's license (or out of province equivalent) is required.**

#### Why you will love working for our Development Services team at the City of Prince George:

- Work with a team of professionals dedicated to providing exceptional customer service.
- Enjoy a competitive wage of \$39.73 – \$47.41 per hour (wage under review) plus 12 % in lieu of benefits.

If you are interested in joining our team, please apply by August 5, 2025 to:
