

... a great place to live, work & play

One of the sunniest regions in BC's Lower Mainland, Delta embraces three unique communities - Ladner, North Delta and Tsawwassen. The City of Delta is looking for dedicated individuals to join our team and share in our commitment to lead the way in public service excellence.

ENGINEERING TECHNOLOGIST 2 - DEVELOPMENT

The City of Delta is looking for a full-time Development Engineering Technologist to join our Development Department. At the City of Delta, we believe in providing exceptional service to our community. If you are someone who thrives in a fast-paced, dynamic environment, enjoys working collaboratively with a team, and is passionate about making a positive impact in our community, then we would love to hear from you! We offer a supportive and inclusive work environment, opportunities for professional growth and development, and a competitive compensation package.

As a member of our team, you will be responsible for providing infrastructure requirements for all types of land development applications, ensuring compliance with plans and related specifications. Reporting to the Manager of Development Engineering, you will prepare infrastructure requirements in the form of reports and memos, interpret infrastructure reports prepared by outside agencies, highway use agreements, servicing agreements, review specifications, construction estimates, contract documents, and other related data and working drawings. Additionally, you will be responsible for providing design-related direction to external Engineering Consultant firms for similar infrastructure projects. As Project Manager, you will monitor the construction of infrastructure projects to ensure compliance with plans and related specifications, schedules, and securities, both personally and through engineering inspection staff or a Consultant. You will also be a key liaison, providing project information, assistance, and direction to a wide variety of internal and external contacts.

The ideal candidate for this job will have the following:

- A diploma in Civil Engineering Technology;
- Three (3) or more years of experience in municipal infrastructure design & drafting, construction, and inspection (two (2) or more years of local experience is an asset);
- Knowledge of common engineering design and construction practices including engineering software (ie Auto CAD);
- Strong engineering analytical skills;
- Strong interpersonal skills;
- Experience with or knowledge of Construction Contract Documents,
- Experience with asset management systems, and Tempest software preferred.

Requirements

- A valid Class 5 BC Driver's License
- Registered **OR** eligible for registration with the Applied Science Technologists and Technicians of BC (ASTTBC) as an Applied Science Technologist (AScT) or Technician (CTech).

The City of Delta provides a competitive salary of \$47.62 - \$56.27 (commensurate with experience) and an excellent benefits package including Municipal Pension Plan as well as an earned-days-off system. Interested applicants are requested to apply online at www.delta.ca/employment, to competition **#25-152 EX** by **August 29, 2025**.

At the City of Delta, we are committed to recruiting and retaining a diverse workforce that reflects our community, providing equal opportunities, and fostering an inclusive workplace where individual differences are recognized, valued, and celebrated.

We thank all applicants for their interest; only those under consideration will be contacted.

Copies of relevant professional certificates, degrees, or tickets must be submitted with your application.

Preferred candidates will be required to submit a Police Information Check.
