

BUILD A CITY. BUILD A FUTURE.

PROJECT COORDINATOR – SANITARY PLANNING

*As one of the fastest growing cities in Canada, City of Surrey is a globally recognized leader in building vibrant, sustainable communities through technology and innovation. City of Surrey employees are talented innovators, inspired by meaningful work and the opportunity to drive our city—and their careers—forward. **Build a City. Build a Future** at the City of Surrey*

SCOPE

Join one of Canada's largest and most innovative sewer utilities as a Project Coordinator in our Sanitary Planning Section. This is a senior technical and administrative role within the Utilities Division, offering diverse experience in sewer system planning, design coordination, asset management, and source control programs. You'll work with a dynamic team to review development applications, manage inspection and rehabilitation projects, analyze system performance, and support infrastructure planning for a rapidly growing city.

EMPLOYMENT STATUS

Union – CUPE Local 402 – Regular Full-Time

RESPONSIBILITIES

- Review and provide technical input on design drawings, contract documents, and specifications for engineering and land development projects.
- Implement and manage data collection programs (e.g. flow monitoring, odour control).
- Operate sewer hydraulic models and conduct detailed performance analyses of the sanitary sewer system.
- Analyze flow monitoring and operational data to assess inflow and infiltration (I&I) levels.
- Lead I&I inspection and rehabilitation programs, including field investigations, contractor and consultant management and public engagement.
- Manage sewer planning technical assignments for Neighbourhood Concept Plans (NCPs), evaluating servicing needs and infrastructure upgrades for new developments.
- Provide technical support around asset management and renewal planning for the City's sanitary infrastructure• Coordinate with regional and neighbouring municipalities on sewer utility operations and administration.
- Develop work plans and manage external consultants for various sewer planning projects and initiatives.
- Collaborate with internal departments and external partners (e.g. consultants, contractors, municipalities, utility companies, and other agencies) to support sewer planning projects and programs.

INTEGRITY • SERVICE • TEAMWORK • INNOVATION • COMMUNITY

Help us build a world-class city. We are hiring talented innovators seeking meaningful work to drive our city - and their careers - forward.
