

## Summer Students – GIS Traffic Signals and Systems

What are you doing this summer? Work within the City's GIS and mapping system using ArcGIS Pro to consolidate and integrate electrical infrastructure data from as-built drawings and various sources of existing GIS data.

This role involves interpreting and digitizing electrical as-built drawings, validating spatial accuracy, and reconciling discrepancies between historical records and current GIS information to enhance the accuracy and reliability of the City's corporate electrical GIS layers, particularly for underground streetlight assets.

### Eligible candidates

- Must be enrolled in school full-time and be returning to full time studies in the next academic year
- Completion of post—secondary courses in GIS
- Have an excellent work ethic, a positive attitude and strong communication, teamwork, customer service, and problem-solving skills
- Be available from early May to late August
- Please note, a criminal record check will be required

These are CUPE bargaining unit positions with an hourly rate of \$24.27 per hour plus 14% in lieu of benefits, vacation and statutory holidays.

Help create Kelowna as a *City of the Future*. Our diverse and dynamic team strives to innovate to make things better, work as one team, serve proudly and lead responsibly. Live, work and play in one of Canada's fastest growing cities. Kelowna boasts miles of lake access, public areas and outdoor recreation opportunities, a vibrant downtown and cultural scene, and healthy & connected neighbourhoods.

The City of Kelowna is committed to being an organization that values and reflects its community's diverse population, and to fostering an equitable, inclusive and progressive work environment where everyone can be their authentic self and feels a sense of belonging.
