

Make working for
The City work for you.

Parks Amenity Structures Technologist

If you are committed to public service, enjoy collaborating with others, share our values and have a desire to learn and grow, join [The City of Calgary](https://www.calgary.ca). City employees deliver the services, run the programs and operate the facilities which make a difference in our community. We support work-life balance, promote physical and psychological safety, and offer competitive wages, pensions, and [benefits](#). Together we make Calgary a great place to make a living, a great place to make a life.

The City is committed to fostering a respectful, inclusive and equitable workplace which is representative of the community we serve. We welcome those who have demonstrated a commitment to upholding the values of equity, diversity, inclusion, anti-racism and reconciliation. Applications are encouraged from members of groups that are historically disadvantaged and underrepresented. Accommodations are available during the hiring process, upon request.

As a Parks Amenity Structures Technologist, you will conduct condition inspections of both existing and new amenity assets within Parks & Open Spaces and Recreation Athletic Parks. The data collected on the conditions and defects will inform asset management plans and guide maintenance and rehabilitation programming. You will also contribute to asset failure investigations by responding to 311 service request cases and providing recommendations for repair and maintenance. Primary duties include:

- Conduct condition inspections for Parks & Open Spaces amenity assets as well as Recreation horizontal assets.
- Conduct technical investigations on asset failures and complete inspection reports.
- Enter asset data into asset management systems.
- Support the Asset Management Engineer on developing repair and maintenance actions and work order management.

Qualifications

- A completed 2-year diploma in Civil Engineering or Architecture and at least 5 years of experience in the building construction and management industry.
- Experience in outdoor facility inspections, including shelters, pergolas, gazebos, sculptures, posts, and railings, is essential.
- A valid Class 5 Driver's License (or provincial equivalent) and access to a personal vehicle for business use is required.
- Experience using ArcGIS Pro and maintenance management systems would be considered an asset.
- The successful candidate will possess a keen attention to detail, a commitment to upholding safety standards, and strong organization skills.

Working Conditions: Conducts inspections of construction sites and assets in the field.

Pre-employment Requirements

- Successful applicants must provide proof of qualifications.

Workstyle

- This position may be eligible to work from home for at least part of the time as one of several flexible work options available to City employees. Such arrangements are based on the operational requirements of the position and employee suitability and are subject to change based on operational needs and corporate direction.
