

... a great place to live, work & play

One of the sunniest regions in BC's Lower Mainland, Delta embraces three unique communities - Ladner, North Delta and Tsawwassen. The City of Delta is looking for dedicated individuals to join our team and share in our commitment to lead the way in public service excellence.

Senior Environmental Coordinator

Reporting to the Climate Action and Environment Manager, the Senior Environmental Coordinator is an integral part of the City of Delta's Climate Action and Environment team in the Corporate Services Department. The work involves extensive contact with other municipal departments and a variety of external agencies within senior governments and the private sector. Considerable independence of judgement and action is exercised in all aspects of the work.

The incumbent will be responsible for the following:

- Assists in developing and implementing the City's environmental programs
- Participates in environmental projects and activities related to climate change adaptation
- Participates in review of environmental assessments for major projects
- Manages the City's mosquito control contract
- Assists with development and review of environmental bylaws and policies
- Coordinates the work of consultants engaged in technical and research projects
- Conducts reviews of development applications as they relate to Delta's Streamside Protection and Regulation Development Permit Area Bylaw, soil deposit permits, Erosion and
- Sediment Control plans, and contaminated sites
- Provides advice to other internal departments regarding environmental regulations and inquiries
- Participates in the response to environmental emergencies and liaises with external environmental agencies
- Directs and/or participates in environmental investigations
- Provides guidance to junior staff
- Prepares and monitors the operating budget for the division
- May act as staff liaison in a committee of Council
- Performs other related duties as required

Successful candidates should have a minimum of five (5) years of experience working in a field related to environment or sustainability that includes knowledge of the procedures relating to environmental spill response, skill in the use of equipment and instruments used in environmental quality control programs, experience with reviewing development and engineering drawings in relation to environmental concerns, and demonstrated ability to make effective oral presentations and strong writing skills.

Registration with the College of Applied Biologists, or near future plans to apply for registration, is preferred. Registration with the BC Institute of Agrologists or a related professional designation will also be considered. A valid class 5 BC driver's licence is required.

Qualified candidates must possess a Bachelor's degree, in addition to at least one of the following degrees, certifications or areas of experience:

- Degree or diploma with technical courses in chemistry, biology, ecology or related disciplines
- Experience reviewing development applications and/or engineering drawings
- Familiarity with municipal, provincial and federal environmental regulations

The City of Delta provides a competitive salary of **\$49.65 - \$58.66** (commensurate with experience) and an excellent benefits package including the Municipal Pension Plan. Interested applicants are requested to apply online at www.delta.ca/employment, to competition number **#26-51 EX** by **January 28, 2026**.

At the City of Delta, we are committed to recruiting and retaining a diverse workforce that is representative of our community, providing equal opportunity and fostering an inclusive workplace where our individual differences are recognized, valued and celebrated.

We thank all applicants for their interest; only those under consideration will be contacted.

Copies of relevant professional certificates, degrees, or tickets must be submitted with your application.

Preferred candidates will be required to submit a Police Information Check.
