---

Reporting to the Senior Transportation Engineer, or designate, the Transportation Engineer will lead and manage long-range, master, and multi-modal transportation planning, as well as Environmental Assessment projects, to support the expansion and improvement of the City's transportation system while promoting a cultural shift towards multi-modal transportation.

**Responsibilities:**

- Provide project management services for transportation related initiatives such as long-range, master planning studies, Environmental Assessments, Transportation Master Plans, and Active Transportation Master Plans
- Manage project administration activities, including cost control, schedule control, and change orders
- Monitor project schedules and deliverables to ensure timely completion
- Lead team resources, priorities and performance related to project work in accordance with City standards, codes and regulations
- Participate in all planning studies including but not limited to: Regional studies, Official Plan Review component studies dealing with transportation,

infrastructure, and growth management to ensure transportation planning and engineering interests are appropriately addressed

- Review transportation studies submitted in support of development applications to recommend appropriate transportation related modifications and mitigation measures, as required
- Review, respond to, and liaise with internal and external stakeholders on transportation initiatives to ensure City and transportation planning and engineering interests are appropriately considered
- Manage, lead, and coordinate transportation related long-range and master planning projects (Environmental Assessments, Transportation Master Plans, Active Transportation Master Plan, etc.) and transportation studies related to development applications
- Represent the City on internal and external committees to ensure that City interests are protected
- Respond to inquiries from Committees, Council, stakeholders and the public to ensure they are well informed
- Support management of the division's operating budget, contribute to the City's capital budget process, and the development of the City's long-term planning and asset management processes
- Perform other duties as assigned
- Support and demonstrate the City of Oshawa's core values of Authenticity, Courage, and Trust

**Requirements:**

- Completion of a four (4) year university degree in Civil Engineering, and a minimum of five (5) years progressive experience in transportation planning and engineering, with at least three (3) years of experience administering and leading long-range, master planning, and Environmental Assessment projects, or an equivalent combination of relevant education and experience
- Licensed as a Professional Engineer (P.Eng.) by Professional Engineers Ontario (PEO), in good standing
- Certification as a Project Manager Professional (PMP) with the Project Management Institute is an asset
- Demonstrated comprehensive knowledge of transportation planning principles, concepts, practices, methods and relevant legislation, (i.e. Environmental Assessment Act, Municipal Class EA process, Highway Traffic Act, Geometric design guidelines etc.)
- Knowledge of project management principles and practices

- Proficiency in transportation engineering and planning software such as Synchro/Sim Traffic, HCS, Emme, CADD, etc.
- Highly developed reasoning skills to understand and formulate responses to complex issues; administrative skills to plan, organize and prioritize work tasks in the completion of studies and reports; research skills for report preparation and analytical skills
- Excellent communication and interpersonal skills to interact with a variety of stakeholders and prepare and present reports and studies
- Ability to deal effectively with multiple tasks, tight deadlines and difficult work situations
- Ability to provide own transportation as required

This position is eligible for hybrid work.

As a condition of employment, the City of Oshawa will require successful candidates to undergo a Criminal Records and Judicial Matters Check.

#### **What the City Offers:**

- Competitive salary
- Comprehensive benefits package
- Pension (OMERS)
- Professional development opportunities and/or education reimbursement
- Paid professional association membership for certification maintenance
- Free on-site parking
- Hybrid work
- Employee perks and wellness programming

Please be advised that position location as noted is at the time of posting and is subject to change, as required due to operational needs.
