

INFRASTRUCTURE ENGINEER

Regular Full-Time - Exempt
Utilities / Civic Operations

Building and Sustaining the Infrastructure our City Depends on

About our community:

Boasting a high quality of life and standard of living, Prince George has all the amenities of a large city mixed with the friendliness and appeal of a smaller community. It is a regional centre for close to 326,000 people for shopping, education, health care, the arts, and sports. Prince George's central location in the province offers work/life balance with unparalleled access to four-season outdoor recreation activities that are complemented by a full range of urban amenities and a comprehensive transportation infrastructure that connects residents, businesses, resources, and agricultural products to markets around the world. And it is only a short drive to almost anywhere in Prince George – spend less time commuting and more time doing what matters most to you! Discover all these opportunities and more!

About our organization:

The City of Prince George is committed to ensuring a positive, well-balanced work environment for its employees. With opportunities for employee training, wellness programs, and professional development, the City of Prince George offers a safe and supportive workplace in which to serve our community.

About the opportunity:

The Infrastructure Engineer is a professional engineering role that provides technical and strategic support to the Utilities, Roads, and Parks divisions within the Civic Operations Department. The position focuses on planning, designing, and managing the City's water, sanitary, and stormwater systems, while supporting related capital, maintenance, and operational programs. Working under the direction of the City Engineer and in collaboration with the Development Engineer, the Infrastructure Engineer helps ensure the reliability, efficiency, and long-term sustainability of the City's infrastructure. This role supports both daily operations and long-term infrastructure planning and requires the ability to work independently while collaborating effectively with internal teams, external agencies, consultants, and the public. Performs related duties as required.

About your background:

The ideal candidate will have a bachelor's degree in civil engineering or a related discipline and be registered, or eligible for registration, as a Professional Engineer (P.Eng.) with Engineers and Geoscientists BC. A Project Management certification (CMP or PMP) is considered an asset. Candidates should bring a minimum of five years of progressive experience in municipal infrastructure design, construction, and operations, including two to three years of project management experience involving budgeting and scheduling. Supervisory experience is considered an asset. The successful candidate will demonstrate proficiency in the City's leadership competencies, including Innovation, Strategy, Persuasion, Communication, Delegation, Achievement, Cooperation, and Empathy. A strong understanding of municipal engineering and public works operations, infrastructure design and asset management, municipal bylaws, and MMCD and CCDC contract documents is required. Experience with budgeting, estimating, and costing for municipal projects is expected, along with proficiency in engineering and modeling software such as Civil 3D, GIS, and hydraulic modeling tools. The ability to manage multiple projects simultaneously with minimal supervision is essential. **You have a valid Class 5 BC driver's license (or out-of-province equivalent). A Police Information Check for offences related to the position is required.**

Why you will love working for our Utilities team at the City of Prince George:

- Work with a high degree of self-direction in this specialized role supporting the Utilities Division!
- Enjoy a competitive annual salary of \$107,598 to \$118,630 plus an excellent benefit and pension package.

If you are interested in joining our team, please apply by March 29, 2026 to:
