We know our city is stronger when we hire qualified individuals from different backgrounds with diverse experiences, cultures and perspectives.

We are focused on creating the highest levels of service excellence, based on an organization-wide community culture that celebrates our employees who make it all happen. We are known as Canada's Tournament Capital and are famous for our hospitality and community spirit, traits that make us a leader! Recreation, sports, arts and culture, health care, social activities, volunteerism, and affordable housing all meld to form a unique blend of big-city amenities with small-town ambience. This is Kamloops!

Let's make Kamloops shine! Join our team today.

Position Overview

The **permanent, full-time Integrated Asset Services Analyst** supports the effective management and optimization of organizational assets by analyzing operational, financial, and performance data across asset lifecycles. This role works closely with teams including operations, finance and engineering to ensure assets are utilized efficiently, maintained proactively, and aligned with strategic business objectives.

This position is responsible for improving business efficiencies by analyzing data and applying structured business management processes to improve operational performance and decision-making. The role focuses on developing reports, monitoring key performance indicators, and identifying trends to support planning, process improvement, and cross-functional collaboration. By translating data into actionable insights, the analyst helps enhance operational effectiveness, streamline workflows, and support strategic business initiatives.

We are known as Canada's Tournament Capital and are famous for our hospitality and community spirit, traits that make us a leader! Recreation, sports, arts and culture, health care, social activities, volunteerism, and affordable housing all meld to form a unique blend of big-city amenities with small-town ambience. This is Kamloops!

The successful candidate must have the following qualifications:

1. Completion of a post-secondary degree in Information Technology, Business, Sciences or Engineering.
2. Completion of a minimum of four courses that are recognized in an accredited Business Analysis or Project Management Certificate Program.
3. Minimum three years' previous experience in Business Analysis.

For new hires, and for those working in designated positions of trust, including those working directly with vulnerable persons, no formal offer of employment will be made until an applicant completes a police information check. A comprehensive benefits package is included with this position. This is a CUPE local 900 position.
