

# BUILD A CITY. BUILD A FUTURE.

## PROJECT ENGINEER – SEWER PLANNING REGULAR FULL-TIME

*As one of the fastest growing cities in Canada, City of Surrey is a globally recognized leader in building vibrant, sustainable communities through technology and innovation. City of Surrey employees are talented innovators, inspired by meaningful work and the opportunity to drive our city—and their careers—forward. **Build a City. Build a Future** at the City of Surrey.*

### EMPLOYMENT STATUS

Exempt – Regular Full-Time

### SCOPE

We are seeking a Project Engineer to provide technical and administrative assistance to Sanitary Sewer Section of the Utilities Division. As a key member to our Sanitary Sewer Section, you will provide expertise to assist in the management of one of the largest municipal collection systems in British Columbia. If you are interested in a career that offers challenge and growth, we encourage you to keep reading.

### RESPONSIBILITIES

- Plan and assess Surrey's sanitary sewer system using available data, tools, and engineering analysis to support reliable and sustainable service delivery.
- Lead data analysis and reporting for sewer flow, odour control, and overall system performance monitoring.
- Apply GIS and hydraulic modeling tools to evaluate system capacity and inform planning decisions.
- Deliver and contribute to infrastructure planning studies and support capital projects from concept through construction.
- Review development applications and ensure alignment with the City's long-term servicing and growth strategies.
- Lead or support inflow and infiltration investigations and other source control programs.
- Analyze operational and SCADA data to identify trends, risks, and improvement opportunities.
- Manage and coordinate with external engineering consultants, contractors, and internal teams, and review technical reports and designs.
- Manage multiple projects and assignments while contributing to broader engineering, planning, and asset management initiatives.
- Liaise with the public, stakeholders, and internal departments to coordinate work and address sanitary servicing inquiries.

### QUALIFICATIONS

- Bachelor's Degree in Civil Engineering or a related engineering discipline.
- P.Eng. designation; or eligible for registration with EGBC.
- Minimum of 5 years of experience in the field of civil engineering, preferably in a municipal environment.
- Is a team player and able to establish and maintain effective working relationships.
- Has good problem solving skills, pays attention to details, and can work independently
- Understand and interpret engineering plans and specifications; collect and analyze data.
- Possesses the ability to communicate effectively both orally and in writing.
- Experience with GIS and piped hydraulic models is a benefit.

INTEGRITY • SERVICE • TEAMWORK • INNOVATION • COMMUNITY
