

CMMS EAM Supervisor

Department : Public Works

Position Type: Full Time **Salary:** \$105,330.00 - \$123,910.00

Job Summary

Reporting to the Associate Director of Asset Information Systems, the CMMS/EAM Supervisor provides leadership and expert oversight for computerized maintenance management systems (CMMS) and the enterprise asset management (EAM) software systems across Public Works. This role is responsible for establishing program standards, system governance, configuration management practices, software roadmaps, data stewardship, reporting practices and continuous improvement initiatives. The position supports administration, reliability, effective user adoption, data integrity, and consistent use of CMMS-enabled work management processes across Public Works.

Minimum Requirements

- Post-secondary degree or diploma in Information Systems, Computer Science, Engineering Technology, Business Administration, Asset Management, or related field.
- An equivalent combination of education, experience, and qualifications may be considered.
- Minimum 5 years of progressive experience leading CMMS/EAM program management, system administration, configuration management, data stewardship, reporting, and user adoption within municipal or complex organizational environments, including experience in a leadership capacity.
- Demonstrated experience administering and configuring CMMS/EAM platforms (e.g., Cityworks, Hexagon EAM or Maximo), including system configuration, workflow design, user and security administration, upgrades, testing, and release management.
