

DISTRICT ENERGY PRIMARY OPERATOR

Regular Full-Time
Utilities / Civic Operations

Support Reliable District Energy Operations That Keep the City Moving

About our community:

Boasting a high quality of life and standard of living, Prince George has all the amenities of a large city mixed with the friendliness and appeal of a smaller community. It is a regional centre for close to 326,000 people for shopping, education, health care, the arts, and sports. Prince George's central location in the province offers work/life balance with unparalleled access to four-season outdoor recreation activities that are complemented by a full range of urban amenities and a comprehensive transportation infrastructure that connects residents, businesses, resources, and agricultural products to markets around the world. And it is only a short drive to almost anywhere in Prince George – spend less time commuting and more time doing what matters most to you! Discover all these opportunities and more!

About our organization:

The City of Prince George is committed to ensuring a positive, well-balanced work environment for its employees. With opportunities for employee training, wellness programs, and professional development, the City of Prince George offers a safe and supportive workplace in which to serve our community.

About the opportunity:

As the Primary Operator (Chief Engineer) for the District Energy Peaking Plant, this position plays a key role in maintaining safe, compliant, and efficient operations in accordance with Technical Safety BC requirements. Responsibilities include power engineering duties, system monitoring, preventive and corrective maintenance, operational oversight, and regulatory reporting. The role progresses with increased operating experience and responsibility, and also supports wastewater lift station, lagoon, and treatment operations under the direction of the Wastewater Chief Operator.

About your background:

You have completed Grade 12 and hold a valid 4th Class Power Engineer Certificate or higher in Boiler and Pressure Vessel Operations. Valid EOCP Wastewater Collections and/or Treatment certifications are considered an asset. You bring a minimum of three (3) years of related power engineering experience, with district energy experience preferred. Experience in wastewater collections and treatment is also considered an asset, along with knowledge of HVAC systems, SCADA, and HMI operations. **As a condition of employment, the incumbent must be able to obtain and maintain a clear Police Information Check for offenses related to the position, plus additional security to permit access to sensitive buildings with various security requirements. A valid full-privilege Class 5 driver's license (or out of province equivalent) is also required.**

Why You Will Love Working for our Utilities team at the City of Prince George:

- Work in a dynamic and engaging environment!
- Use your specialized expertise to solve technical problems and maintain system reliability.
- Enjoy a competitive wage of \$42.35 - \$45.59 per hour (wage under review) plus a comprehensive benefits and pension package.

If you are interested in joining our team, please apply by October 13, 2026 to:
