CITY OF PRINCE GEORGE

Build your career
with the City of Prince George

ENGINEERING TECHNOLOGIST

Regular Full-Time
Utilities / Civic Operations

A Rewarding Project Management Role with Room for Advancement!

About our community:
Boasting a high quality of life and standard of living, Prince George has all the amenities of a large city mixed with the friendliness and appeal of a smaller community. It is a regional centre for close to 326,000 people for shopping, education, health care, the arts, and sports. Prince George's central location in the province offers work/life balance with unparalleled access to four-season outdoor recreation activities that are complemented by a full range of urban amenities and a comprehensive transportation infrastructure that connects residents, businesses, resources, and agricultural products to markets around the world. And it is only a short drive to almost anywhere in Prince George – spend less time commuting and more time doing what matters most to you! Discover all these opportunities and more!

About our organization:
The City of Prince George is committed to ensuring a positive, well-balanced work environment for its employees. With opportunities for employee training and professional development, we offer a safe and supportive workplace in which to serve our community. The City of Prince George is committed to fair and equitable hiring practices. We believe our workforce should reflect the diverse community we serve and that diversity fosters innovation, enhances service delivery, and is a benefit to all.

About the opportunity:
In the Utilities portfolio, you will be responsible for overseeing the delivery of various projects including project initiation, detailed design, construction administration, inspection, project management, and project closeout. You will be responsible for the delivery of capital projects and technical support for operational aspects related to utilities (District Energy system, water, sanitary and storm sewer). Technical support may include computer modelling (water/sewer/storm), pressure testing, flow monitoring/testing, product research and selection, development investigations and inspections, CCTV review, asset management documentation, CMMS maintenance and technical support for operations staff.

About your background:
We are seeking a highly motivated professional with a two-year post-secondary diploma in Civil Engineering Technology from an accredited post-secondary institution recognized in the BC Transfer Guide. Ideally, you hold or are eligible for a designation as an Applied Science Technologist (AScT) (or out-of-province equivalent) and have completed project management courses or designations. You have a minimum of two years of experience in the Civil Engineering field including experience with survey, design, and management of municipal construction projects. **A full privilege Class 5 BC driver's license (or out-of-province equivalent) is required.**

Why you will love working for our Utilities team at the City of Prince George:
- Utilize your skills in developing and managing projects and budgets.
- Enjoy a competitive wage of $41.32 - $54.88 (wage under review) per hour plus a comprehensive benefits and pension package.

If you are interested in joining our team, please apply by November 24, 2026 to:
