Position Summary

Situated on the picturesque Grand River, the City of Brantford is a rapidly growing community of over 100,000 residents, located in the heart of Southern Ontario with direct access to Hwy. 403 and is in close proximity to the GTHA, Waterloo and Niagara regions. As a single-tier municipality, Brantford is responsible for the full spectrum of municipal service areas. We invite you to join our #TeamBrantford corporate culture with many progressive initiatives, including our hybrid work environment. At the City of Brantford, we strive to reflect our values of Integrity, Collaboration, Continuous Improvement, Respect and Inclusion in everything we do. The City is committed to the professional development of our staff and invite you to come, grow with us!

Reporting to the Supervisor of Road Compliance, the Operational Services Technologist is responsible for providing leadership, technical support and development in the planning, design, monitoring, analysis, evaluation, delivery and modification of Right of Way, Roads and Traffic programs. The Technologist participates in and supports office administration, Right of Way, Roads and Traffic compliance projects such as systems analysis, data base administration (DBA), compliance tracking, inventory tracking, inspection scheduling, technical support and development for projects and preventative maintenance programs.

The position will recommend improvement strategies in the delivery of services to meet mandated goals and objectives in compliance with all applicable legislation as well as City policies. The Technologist will promote teamwork and integration across Operational Services and Public Works, with both customers and outside agencies and participates in cross-functional initiatives.

Qualifications

- Three (3) year post-secondary diploma in Transportation, Construction or Civil Engineering Technology or equivalent

- Over (3) years' of previous demonstrated technical experience in a Public Works environment
- Previous experience managing GIS software as well as other electronic devices, tablets and software programs ARCGIS, AVL, mobile inspection applications, Cartegraph and Cloud Permit would be considered an asset
- Demonstrated ability to manage and prioritize large, multi-faceted projects
- Knowledge of applicable legislation such as the Municipal Act, Highway Traffic Act, Occupational Health and Safety Act, and other municipal and provincial legislation
- Book 7 Traffic Control training or knowledge would be considered an asset
- Previous experience performing roads related duties, with emphasis on inspection, technology and patrol
- A valid Class G Driver s license, maintained in good standing
