ENGINEERING ASSISTANTS – ASSET MANAGEMENT

Regular Full-Time
Asset Management & Capital Planning / Civic Operations

Support the City in This Challenging Technical Role!

About our community:
Boasting a high quality of life and standard of living, Prince George has all the amenities of a large city mixed with the friendliness and appeal of a smaller community. It is a regional centre for close to 326,000 people for shopping, education, health care, the arts, and sports. Prince George's central location in the province offers work/life balance with unparalleled access to four-season outdoor recreation activities that are complemented by a full range of urban amenities and a comprehensive transportation infrastructure that connects residents, businesses, resources, and agricultural products to markets around the world. And it is only a short drive to almost anywhere in Prince George – spend less time commuting and more time doing what matters most to you! Discover all these opportunities and more!

About our organization:
The City of Prince George is committed to ensuring a positive, well-balanced work environment for its employees. With opportunities for employee training, wellness programs, and professional development, the City of Prince George offers a safe and supportive workplace in which to serve our community. The City of Prince George is committed to fair and equitable hiring practices. We believe our workforce should reflect the diverse community we serve and that diversity fosters innovation, enhances service delivery, and is a benefit to all.

About the opportunity:
In this technical role, you will assist the Division by undertaking the challenges associated with the development and implementation of the City's asset management strategies, processes, and tools. You will provide technical training and advice, participate in research activities, complete life cycle costing of alternative asset renewal or replacement strategies, and participate in the development and implementation of asset data collection processes.

About your background:
You are a motivated professional with a diploma in Civil Engineering Technology and certification as an Applied Science Technologist (AScT) or Certified Technician in British Columbia. Ideally, you have at least five years of experience in design, operations, and project management, preferably within the municipal or municipal consulting sector. You possess extensive knowledge of asset management procedures and practices. You thrive in a fast-paced work environment and enjoy collaborating as part of an interdisciplinary team. **The successful applicant must be able to obtain and maintain a clear Police Information Check for offences related to the position. A valid, full privilege Class 5 BC driver's license (or out of province equivalent) is also required.**

Why you will love working for our Asset Management team at the City of Prince George:
- Support asset management with your strong technical skills!
- Work with a professional team dedicated to providing exceptional service.
- Enjoy a competitive wage of $48.00 - $49.31 per hour plus a comprehensive benefits and pension package.

If you are interested in joining our team, please apply by December 8, 2026 to:
