Position Title: Maintenance Mechanic (2 Positions)
Position Status: Full-Time Regular
Department: Liquid Waste Services
Employee Group: GVRDEU
Location: Annacis Island Wastewater Treatment Plant, Delta
Salary Range/ Wage Rate: $47.88 hourly plus 6.25% deferred compensation (2024 wage rates)
This role receives an additional 6.25% deferred compensation on hours worked. The additional 6.25% can be taken as compensation or time off.

Our Liquid Waste Services Department is seeking two Maintenance Mechanics who will join a team to assist with maintaining critical infrastructure at Annacis and Northwest Langley Waste Water Treatment Plants.

You are a candidate that is self-motivated, hardworking and a professional in both teamwork and attitude. You possess a red seal ticket for Heavy Duty Mechanic or Millwright and a strong commitment towards safety.

This role: *(The duties described hereunder are to be representative of the position and are not to be considered as all-inclusive.)*

- Installs and aligns machinery and equipment to specified tolerances.
- Maintains, repairs and overhauls equipment such as diesel/gas engines, electric generating units, high pressure gas and air compressors, gas and air blowers, large pumps, grinders, grit removal vortexes, conveyors, barminutors, reduction gears, heat exchangers, hand and pneumatic valves, overhead cranes, turbines, etc.
- Installs, maintains and services valves, meters, and various piping systems throughout the region.
- Installs, maintains and aligns all conveyor systems chains, sprockets, plates, pumps, drives and compressors.
- Services and maintains all internal combustion engines and keeps engine maintenance records.
- Investigates, troubleshoots, and takes remedial action on problems reported by Operators at different sites.
- Maintains records of completed jobs and shares expertise with Operators on serviced equipment.
- Trains and directs junior Mechanics in maintenance procedures.
- Maintains technical currency related to the trade.
- Assist welders with layout work and provides minor maintenance welding.

- Inventories materials and parts as required for various types of work.
- May act for supervisor as required.
- Works in compliance with all GVRD safety policies, procedures and WCB regulations.

To be successful, you have:

- Grade 12 (or equivalent), plus appropriate Trades Qualification certificate (Heavy Duty Mechanic or Millwright)
- A minimum of four (4) years of experience and responsibility in the mechanical field involved in the repair, maintenance and overhaul of equipment.
- Skilled at machine fitting, welding and pipefitting and in the use of micrometers, verniers, gauges, lathes, tapers, reamers, milling machines, etc.
- Must have complete and thorough knowledge of the operation and repair of large pumps, diesels, dual fuel engines and their installation.
- Must be proficient in use of hand tools, power tools, shop tools, bench grinders, lathes, torque wrenches and gas cutting torches and have the ability to interpret blue prints.
- Demonstrated initiative and proven ability to work with minimal supervision and able to decide on best work methods to be used.
- Ability to comprehend complex operations and theories, requiring analytical skills.
- Must be able to communicate effectively verbally and in writing.
- Must be computer literate and able to use applications such as Word and Excel, including an ability to understand and apply Computerized Managed Maintenance System (CMMS) and predictive maintenance technologies.
- Considerable knowledge of the GVRD's safety policies, procedures and WCB regulations.
- Must participate in and develop Safe Work Procedures.
- Must possess reliable set of hand tools.
- Physically capable of performing the duties of the position.
- Ability to work shift work as required.
- Valid B.C driver's license.
